

Build A Box Turtle!

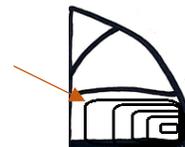

Decorate your turtle's carapace and plastron. Every box turtle has unique orange, yellow, brown, and black patterns that help tell them apart!

Turtles can be aged by counting the number of lines within a section of their plastron. Each year when a turtle grows, it adds one more line, or annuli. You can decide the age of your turtle by adding annuli to your picture!

Annuli

This template can be used on its own as a craft activity or as a part of the Box Turtle Blitz activity.
